CHURCH MATTERS.

Rev. F. D. Hernbrook dropped dead on the street at Newton, Mass.

A three days' conference of the Student Young Men's Christian Association of Kentucky was held at Georgetown. Delegates from outside the State were present.

Twenty women went into a corn field near Owensville, Gibson Co., Ind., and shucked corn all day in order to raise money to pay off part of the debt of the Methodist church of that place. The women have been working to pay off the debt, and recently W. P. Teel, the Sunday school superintendent, told them they could have all the corn they could shuck in his field, the money derived from the grain to be applied on the debt. Many men paid \$1 admission into the field to see the women working.

Application for permission to invade Zion City with religious and charity workers and to hold revival and mission services and meetings there for the purpose of converting the followers of Dowie, has been made to the receivers and their attorneys. Clergymen of various denominations declare that the people of Zion City need instruction upon the distinction between religion and materialism, and that if permission is given to establish missions and to hold services there the condition of the people of Zion City could be improved. It is urged that the people of Zion City at this time are in a "receptive frame of mind." The application has not been sanctioned by the receivers, who say they are handling a commercial proposition, and have no right to mix it with the religious affairs of the people of Zion City.

Besides the "Self-denial" offering, with which the ladies of the Christian Woman's Board of Missions observe Easter each year, one other day in the calendar is dedicated to this work, which is the first Sunday in December, known as "C. W. B. M." day. This day is observed by the church as well as by the auxiliary, in having presented some particular phase of the work, in prayer and in making an offering to this worthy cause. In recent years the C. W. B. M. has, in part, directed its attention and means to the education and evangelization of Eastern Kentucky. Last Sunday, the crying needs of that section of our State were presented by Mr. H. J. Derthick, of Berea, in two interesting, pathetic and effective addresses. Mr. Derthick is a native of Cleveland, O., an alumnus of Hiram College, who has dedicated his talent and his life to the mountain people of Kentucky. Mr. Derthick's experience of years among this people enables him to delineate their character with interest, and effectiveness, and to impress their needs in a pathetic and convincing manner upon his hearers. Evidence of the truthfulness of the last statement lies in the generous response of the audiences which heard him. Besides the contribution of the auxiliary, which goes to the national fund, there was a free will offering of \$81 to aid in building a dormitory for girls at Hazel Green, Ky. Ten representatives of the Steel Range Stove Co., who are temporarily located at Stanford, sent a check for \$10, expressive of their interest in "Home Missions" and their approval of this work. The thanks of the auxiliary here and of the State Board is extended to them. The offering Sunday, \$103, is the largest ever made here by the Christian church in one day for any one mission cause, not to mention the supplementary contributions yet to come from those who were absent on Sunday. May God bless all who, in any way, had a part in this work of love. J. W. Hagan, minister to the Christian church.

MATRIMONIAL.

Millard Collins and Miss Hilde McCaffrey, prominent young people of Adair, will be married Dec. 23.

Mr. Charles Cansler, of Hopkinsville, and Miss Sara Gill, of Clarksville, eloped to Nashville and were married.

Yesterday morning about 4:30 o'clock, Mr. G. S. Hiatt and Mrs. Ella Baker, widow of the late Andrew Baker, were quietly married at the home of Rev. J. C. Carmichael the officiating clergyman. They left immediately after the ceremony was performed for Mr. Cash Hiatt's where they took breakfast.—Mt. Vernon Signal.

An effort will be made to have the Legislature appropriate money for the establishment of an infirmary and library at the Confederate Home at Pewee Valley. The condition of many of the aged veterans demands an infirmary, and it is believed that favorable action will be secured.

Miss Katie Roubough, a telegraph operator at Thacker, W. Va., for the Norfolk & Western railroad, shot and slightly wounded William Howards, an alleged outlaw, who attempted to embrace her.

LAND, STOCK, CROPS, ETC.

John E. Madden's racing stable has won \$71,000 this season.

It is said that deep plowing in England has doubled the yield of wheat, oats and other crops. They plow as deep as 20 inches. Steam plows are used.

The Kentucky Packing & Provision Co. was incorporated in Louisville with a capital stock of \$250,000. A large packing plant will be placed in Louisville and branches will be established in other Kentucky towns.

"The highest price ever paid in this country for a single fowl;" says the Indiana Farmer, "was paid this season for a Buff Plymouth Rock cockerel. He sold for \$300 and four females to be mated with him sold for \$200."

Peter Durves, of Lexington, who purchased the famous trotter, Peter the Great, at the Fasig-Tipton sale in Madison Square Garden, says he will ship the horse to England, where he is to start a stock farm at Chesterton, Cambridge.

Judge Hughes sold his fine buggy mare to Mr. Warfield for \$550. John L. Van Arsdall took the animal to Lexington to ship her to California. Mrs. Price Gordon and Mrs. Alex Smith sold to John Gallagher 60 turkeys for \$103.94.—Harrodsburg Herald.

Joe Kildig, the nationally known horse dealer of York, Penn., was at the Grand and took home with him a car load of fancy harness and saddle horses, including some top teams. "I have been in the business for 25 years, and my father for 50 years before me," said Joe, "and between us in this last half century, we have handled 75,000 first-class horses and mules from out this way, chiefly from Kentucky. Medium grade horses for riding and driving are not as steep in price as they have been; they have been too high, but they are still a ready sale at prices that are remunerative to raisers. Stable horses, both trotters and runners, hold up to fancy figures, and will continue to do so, for sport is more rampant than ever, and the American people must have it at any price"—Cincinnati Enquirer.

Proantittransubstantiationistically is supposed to be one of the longest words in the English language. It is quite a mouthful if one happens to be in a hurry.

Two friends, Pat and Mike, happened to pass on opposite sides of the street one day. Mike had a lady with him. On crossing over to greet Pat the following conversation took place:

"How are you Mike?"

"Fair Pat. How's yourself?"

"Fair to middling. That's a homely old woman ye've got with ye, Mike."

"Arrah, Pat, that's me wife and ye have heard the saying that 'beauty is only skin deep'?"

"Begorah, Mike, take her home and skin her at once!"—Boston Traveler.

Fight Will be Bitter.

Those who will persist in closing their ears against the continual recommendation of Dr. King's New Discovery for Consumption, will have a long and bitter fight with their troubles, if not ended earlier by fatal termination. Read what T. R. Beall of Beall, Miss., has to say: "Last fall my wife had every symptom of consumption. She took Dr. Kleg's New Discovery after everything else had failed. Improvement came at once and four bottles entirely cured her." Guaranteed by all druggists. Price 50c, and \$1. Trial bottle free.

Don't you hunt for trouble; Jes' ten' to what you's got. It ain't no special credit. Even if you finds a lot.

Thursday was the wildest day ever seen on the New Orleans cotton exchange. The government estimate of 9,962,039 bales sent prices up from 90 to 92 points above the closing figures of the day before. The attorneys for the petitioning creditors said it was the belief that Dowie was amply able to pay his debts and that the receivership was costly and unnecessary.

FRANKFORT will hold one of the biggest crowds to-day ever assembled to participate in the inauguration of a Governor. The parade, which takes place in the morning, will have 1,200 members of the State militia in line and 100 picked patrolmen from the Louisville police force. The inauguration ceremonies will be conducted at 12 o'clock in front of the Statehouse; memorial exercises will be held over the grave of Gov. Goebel in the afternoon, and a reception and ball will be given to-night. Judge Saufey, of this place, has been invited to speak at the memorial exercises.

THE Lexington Democrat is to be commended upon its effort to close up the saloons in the outskirts of its city. Three-fourths of the murders committed in the Blue Grass capital occur at and around the saloons in the suburban portions of town, where police protection is almost an "unknown quantity." If Lexington has to have saloons, and it seems that she does, let them be in the business portion of the town where policemen are the thickest and where the owners of them can be made to run them according to the law's dictates.

IN a lucid moment Dick Knott, of the Louisville Post, says: "Gov Beckham and the democratic candidates have been elected. They are to be our officers, in law and in fact, and every loyal citizen will co-operate with them in advancing the State's growth and in protecting the interest of the people." There is some hope for "Dickey Bird," yet, for "as long as the lamp holds out to burn the vilest sinner may return."

THE death of Wm. M. Springer removes a once picturesque figure in the Congressional halls at Washington. He was a democratic leader conspicuous in the House of Representatives during the 44th to 53rd Congresses, inclusive, and once chairman of the Ways and Means Committee of the House. His death was due to pneumonia contracted in Chicago Thanksgiving day.

DR. HUNTER expressed no surprise over the report from Louisville that D. C. Edwards would contest his seat. He believes, however, that Mr. Edwards will reconsider the matter before the 30 days allowed contestants for filing notice expires, and will then conclude not to contest. Dr. Hunter announces that he will be a candidate to succeed himself next year.

THE declaration of martial law at Cripple Creek, Col., has paralyzed business. Pickets are stationed on all the street corners and many residents of the city do not leave their homes. A censorship of the press has been established at Cripple Creek and at Victor, and the provost marshal is threatening to imprison the newspaper correspondents.

GOV. A. T. BLISS, of Michigan, has requested Commissioner Ware to discontinue his pension for disability incurred during the Civil War, as he is not in need. Gov. Bliss has been drawing \$12 a month. It took the old gentleman a long time to find out that he needed no aid from the government, but it is better late than never, we suppose.

THE cosmopolitan and polyglot character of New York city is well illustrated in the fact that no less than 66 different languages are said to be spoken within its confines. It would be impossible to even attempt an enumeration, but it is a safe presumption that nearly every language under the great, round sun, is represented in that city.

THE Somerset Journal is delighted over "Gum Shoe" Hunter's success in besting the other fellows. So are all of us who want to see ex-democrats, who are holding fat Federal offices, kicked out.

Former Representative William M. Springer, of Illinois, died at his residence in Washington.

Upon the recommendation of Representative-elect Hunter, Dr. W. R. Grissom has been appointed a member of the Columbus, Adair county, Board of Pension Examiners to succeed Dr. L. C. Nell.

The Senate and House Saturday adjourned over until Monday. This action will merge the extra session into the regular session without interim, and will cause the lapse of the nomination of Gen. Wood.

The Texas Chapter of the Daughter of the Confederacy adopted resolutions commanding President Roosevelt for his endorsement of the principles of the right of secession as shown in his record toward Panama.

Third Assistant Postmaster General Edwin C. Madden says in his annual report that the deficiency in the postal revenue would have been almost if not entirely eliminated but for the cost of the rural free delivery service.

Hon. John G. Carlisle has been named as the representative of the United States in the arbitration of claims of the San Domingo Improvement Company against the Dominican republic. The claims aggregate \$4,500,000.

Robert L. Greene, for 20 years chief deputy in the office of the appellate clerk, was sworn in as an attorney of the court. The oath of office was administered by Chief Justice Burnam. Mr. Greene retires from the clerk's office on Jan. 1, next, when the new clerk takes charge, and will open an office in Frankfort for the practice of law before the court of appeals exclusively.

The standing committees to which the Kentucky Representatives are assigned are as follows: Ollie M. James, Elections No. 1, Expenditures of Navy, A. O. Stanley, Mines and Mining, John S. Rhea, Banking and Currency, Election of President and Vice President, D. H. Smith, Judiciary and Ventilation and Acoustics, Swaggs Sherley, Revision of Laws, D. Linn Gooch, District of Columbia, Claims, South Trimble, Claims, Expenditures, G. G. Gilbert, Private Land Claims, Labor and Expenditures in Postoffice, James N. The meeting of the Southern cotton manufacturers at Charlotte, N. C., today promises to be largely attended. The question of the curtailment of production will be considered.

Marshal Newland, of Jackson, has sworn in 25 deputies, who will assist him in maintaining order. This step was the result of a meeting of citizens after the soldiers were withdrawn.

Dr. James Van Dyck, who died recently in Massachusetts, left a note in which he declared that he would be poisoned by some one. His wife declares that he was not in his right mind.

LINGLE—John J. Lingle, of Junction City, died at the home of his father, S. T. Lingle. He was 17 years of age and was night agent at that place for the L & N. The funeral was held at the Methodist church, Junction City, Sunday morning and the burial followed in the cemetery at that place.

GRIFITH.—Mrs. George R. Griffith died at McKinney Saturday after a long illness. She was the widow of Geo R. Griffith, who died some eight months ago. The remains were taken to Lexington for interment. Mrs. Griffith was a most excellent woman and will be missed by the many friends she had made during her sojourn at McKinney.

KILLED HIS UNCLE—John Petrey, aged 21, killed his uncle, Armp Petrey, aged 45, at the home of Mrs. Faber, near Ostenheim. The young man, who surrendered, claims that his uncle, who had been drinking older, was advancing on him with a club and that he shot to save himself. He had been rabbit hunting and had his shot gun with him, which weapon he used. He fired twice, both shots taking effect in Armp Petrey's stomach. The deceased bore a bad name, while his slayer is said to be a good, hard-working boy. He was perfectly calm when an I. J. reporter interviewed him and he talked as if he had nothing to conceal. Mr. A. A. Crutchfield, for whom he works, told Judge Bailey he would take care of him until his trial, which the judge allowed him to do. Armp Petrey had been twice married but both wives are dead. He had three children.

WILL HOLMES KILLED BY JAMES H. KENNEDY.—In Mrs. Roberts' yard in the Cedar Creek section the East End on Saturday night James H. Kennedy, son of Mr. Grove C. Kennedy, shot and instantly killed Will Holmes, son of Mr. Dad Holmes. Kennedy, who came here with Marshal Riddle, of Crab Orchard, Sunday, told an I. J. reporter that he went to Mrs. Roberts' house for the purpose of pacifying young Holmes, who had made threats against his brother, Ben Kennedy, who was also at the house. When he arrived the two were having some trouble and he separated them. Holmes, according to James Kennedy's statement, dealt the latter a hard blow in the forehead with the butt end of his pistol and in the scuffle that followed, he, Kennedy, got possession of the weapon. Holmes then drew a knife and advanced on him. "I plead with him not to come further and go away and let me alone, but he would not do it and I shot him," said Kennedy. Two shots were fired, the first missing Holmes and the latter striking him just above the heart. Mr. Kennedy says he used Holmes' pistol and that neither he nor his brother Ben had a weapon. Kennedy had an ugly mark on his forehead where he says Holmes struck him.

BROWN.—Cold, unfeeling type! One of Nature's noblemen stiff, stark in the grave and ye tell it without a tremor! Hawkins Brown was my friend; he was every honest man's friend. His tender heart, his jovial nature, his philatropical character endeared him to a host of friends both in and out of the profession which he honored. He died at Hustonville of neuralgia of the heart last Tuesday morning. Rest peacefully, old friend, till we meet again!—Somerset Journal.

PERKINS.—Roscoe M. Perkins, aged 19, died at El Paso, Texas, last week of consumption and his remains were to have arrived at Crab Orchard for burial last night. He was a son of Mr. W. E. Perkins, the well-known Crab Orchard merchant, and had been in the Southwest in search of health for nearly two years. Some two months ago his father went to see him and insisted on his returning home with him, but the young man declined, saying that he did not believe he could stand the Kentucky climate. In response to a telegram telling of his serious illness, Morris M. Perkins left Monday for his bedside, but his brother died before he reached him. Roscoe Perkins was a fine young man and his cutting down so early in life is indeed sad. Much sympathy is felt for the father and brothers. Wade Perkins is at home from Goodlettsville, Tenn., to attend the burial.

AL COFFEY, son of Mr. J. Marsh Coffey, of the Walnut Flat section, had a thrilling experience some days ago. He is a fireman on the Pennsylvania Railroad and no wreck that he may ever impress him as did his experience with the car barn bandits near Chicago. He was sitting on his engine while his engineer was at dinner and the bandits, three in number, after shooting the life out of a brakeman who was in the cab, ordered Mr. Coffey to run his engine to a certain place. As the order was accompanied by a drawn revolver or two, Mr. Coffey obeyed. He ran the engine for several miles and with his whistle ordered the man in the tower, not far distant, to throw a certain switch. "If we go further we will never get it and come out alive will ever impress him as did his experience with the car barn bandits near Chicago. Constipation is nothing more
than a clogging of the bowels
and nothing less than vital stagna-
tion or death if not relieved.
If every constipated sufferer
could realize that he is allowing
poisonous filth to remain in his
system, he would soon get relief.
Constipation invites all kind of
contagion. Headaches, bilious-
ness, colds and many other ailments
disappear when constipated bowels are relieved. Theodford's Black-Draught thoroughly
cleans out the bowels in an easy
and natural manner without the
purging of calomel or other violent
cathartics.

The Growth Of Liquor Prohibition tion.

Few persons seem aware of the rapid
growth of prohibition, particularly in
the South. In Texas the prohibitionists
have carried a large majority of
the counties and are still making the
crusade so vigorous that they are yearly
adding to the number. They have
also won all but eight of the 75 coun-
ties in the State of Mississippi. In both
States a movement is now being made
to adopt a constitutional amendment
which will provide for the submission
to a popular vote of a proposition to
prohibit the sale of liquor, and it is believed
it will receive a large majority,
thereby extending prohibition even in
those counties that have held against
it.

In Tennessee there are now only a
few counties where the sale of liquor is
permitted; and should the movement in
Texas and Mississippi succeed, it will likely
be extended to Tennessee also, if not to Kentucky, but in the latter with less
probability of success.

In the Western States the prohibitory
lists are also very strong and growing
in numbers and power.

Opposition to sumptuary laws has
long been a tenet of the democratic
party; but unless the sentiment of the
party on this subject has undergone a
great change, how can we account for
the rapid growth of prohibition in such
strong democratic States as Texas, Mis-
sissippi and Tennessee, to say nothing of
Kentucky?—Courier Journal.

Has Seen Many Presidents.

Mr. Cleveland has lived in the time
of more administrations than any one
who has ever been president. He was
born in 1837. In that year Martin Van
Buren was inaugurated president, con-
sequently Mr. Cleveland has lived in
the administration of Van Buren, the
short term of William Henry Harrison
and the remainder of the term to which
Tyler succeeded; also to the administra-
tions of Polk, Taylor, Fillmore,
Pierce, Buchanan, Lincoln, Johnson,
two terms of Grant, Hayes, Garfield,
Arthur, Benjamin Harrison, McKinley
and thus far in the administration
of Roosevelt—in all 18, and including
his own, 20.

Mr. Cleveland has not only lived in
the administrations mentioned, but he
has lived to see six vice presidents suc-
ceed to the presidency, three of them,
Johnson, Arthur and Roosevelt, com-
ing to the White House through the
assassination of their predecessors. The
others were Van Buren, Tyler and Fill-
more.

The fact that Mr. Cleveland is the
only president who succeeded himself
four years after his first administra-
tion is well known, and is to be added
to the other unusual things about his
political life.—N. Y. Sun.
